

### REMARKS

An Abstract has been added, as required. Three sheets of formal drawings are submitted herewith, to substitute for the drawings that have been objected to.

The requirement to amend the title is respectfully traversed, as the suggested title does not take into account that a method is also claimed and also that an embodiment employs an optical prefilter grating. However, if the Examiner still objects to the present title, Applicant would not object to the title "Color Video Camera System And Method With Optical Prefiltering."

Claims 1-50 have been cancelled, and claims 11, 17, 34, and 43, respectively, deemed allowable except as to form, have been redrafted as new independent claims 51, 57, 58, and 59, respectively. Claims 51-59 are in the case.

Accordingly, it is believed that the Application is now in condition for allowance, and such action is earnestly solicited.
